At **Jiffy Lube**, we are dedicated to preserving the health and value of your vehicle. With gas prices soaring, we want to show you the benefits of our everyday services to help you save money on your gas and keep your vehicle running smoothly.

According to the EPA and U.S. Dept. of Energy, you can save significant money on your gas purchases when having the following services done regularly.

Check and Replace Air Filters Regularly

Replacing a clogged air filter can improve your car's gas mileage by as much as 10 percent. Your car's air filter keeps impurities from damaging the inside of your engine. Not only will replacing a dirty air filter save gas, it will protect your engine.

Fuel Economy Benefit: up to 10%
Equivalent Gasoline Savings: up to \$0.37/gallon

Keep Tires Properly Inflated

You can improve your gas mileage by around 3.3 percent by keeping your tires inflated to the proper pressure. Under-inflated tires can lower gas mileage by 0.4 percent for every 1 psi drop in pressure of all four tires. Properly inflated tires are safer and last longer.

Fuel Economy Benefit: up to 3%
Equivalent Gasoline Savings: up to \$0.11/gallon

Use the Recommended Grade of Motor Oil

You can improve your gas mileage by 1-2 percent by using the manufacturer's recommended grade of motor oil. For example, using 10W-30 motor oil in an engine designed to use 5W-30 can lower your gas mileage by 1-2 percent. Using 5W-30 in an engine designed for 5W-20 can lower your gas mileage by 1-1.5 percent. Also, look for motor oil that says "Energy Conserving" on the API performance symbol to be sure it contains friction-reducing additives.

Fuel Economy Benefit: 1-2%
Equivalent Gasoline Savings: \$0.03-\$0.07/gallon

Save up to 15% on your gas with these services at **Jiffy Lube today!**

That's the equivalent of getting up to \$0.55 OFF of every gallon of gas you buy!

And make sure you receive our free Jiffy Lube 2008 "**Recession Buster Card**"

(*Based on gas prices of \$3.70 per gallon)
